

Presenting with Impact

Just wanted to say a huge thanks for the last 2 days.

As a pilot programme I could not have gathered together a more diverse group - developers, trainers, marketing and presales plus multi cultural - and you delivered to them all. What I loved about what you did was that you walked your talk - you not only facilitated the group, but led the way - show casing Presenting with Impact with style. The shift in the presentations were huge from the beginning of day1 to the end of day 2.

Comments from the group throughout the workshop were hugely complimentary from - 'pleasingly different' to 'WOW'. You have clearly made an impact - thank you
